COMFORTABLE MOBILITY

Our Vive Mobility electric power chair provides optimal comfort and safe, stable mobility for those with limited mobility due to injury or illness. The large electric wheelchair smoothly navigates indoors, enabling independent mobility in comfort and style.

SAFE MANEUVERABILITY

Ideal for navigating around your home, the large power wheelchair features a tight, 25" turning radius and 2.5" ground clearance to easily navigate indoors and on level outdoor surfaces such as pavement and concrete and those with a gentle incline.

EASY TO OPERATE

Featuring a 360-degree, joystick controller, our electric wheelchair is easy to operate. The intuitive joystick controller allows you to easily navigate around obstacles while monitoring and adjusting the speed of the electric wheelchair up to 4mph. The wheelchair controller is repositionable for use on the left or right side and includes a safety horn button and a battery charge indicator.

CUSTOMIZABLE SEATING

Safely supporting up to 300 pounds, the large power chair is equipped with a cushioned 18" by 20" captain's seat with a lap belt for added safety. The wide seat is height adjustable, reclines for greater comfort and swivels for easy transfers. The footplate and armrest height, width and angle are also adjustable to provide personalized seating for most adults.
